

## How to uninstall

Written by Administrator

Wednesday, 02 September 2009 07:23 - Last revised Friday, 18 September 2009

---

- Login into the Joomla Administrator at <http://yoursite.com/administrator>
- Go to Extensions → Install / Uninstall
- Select the Components tab
- Select com\_acontact
- Click Uninstall

You must pay attention that the plugins installed with the AContact Manager are not uninstalled by default cause can be used from other extensions. So if you dont'use in other extensions, you have to unistall each one.

The Plugins are:

- Alikonweb IpDetecor
- Alikonweb GoogleMap
- Alikonweb Ajax Captcha Plugin
- Alikonweb Video plugin

So repeat these steps for the plugin you need to uninstall depending on your configuration

- Login into the Joomla Administrator at <http://yoursite.com/administrator>
- Go to Extensions → Install / Uninstall
- Select the plugin tab
- Select
- Click Uninstall
